U. S. TRADE WITH NONCONTIGUOUS TERRITORIES in 1913.

American merchandise valued at 111.6 million dollars found markets in the non-contiguous territory of the United States in 1913 against 87 million 10 years ago and 7 millions 20 years ago. Figures received by the bureau of foreign and domestic commerce, department of commerce, put the value of shipments to Porto Rico at 25.9 million dollars; to Hawaii, 24.8 million; to the Philippines, 27.9 million; to Alaska, 21 million; and to Guam and American Samoa, less than one-fourth million making the total for the 12 months ending with December, 1913, 111.6 million dollars. The total for 1913 is larger than that of any previous year, that of 1912 having been 108 million; that of 1911, 92.5 million; and that of 1910, 89 million. The 1913 shipments to the Hawaiian and Philippine islands are larger than those of any previous year, those to Porto Rico about one million below those of 1912, and those to Alaska about one-fourth million less than 1912. The shipments to the Philippines show an increase of more than 3 million dollars in 1913 compared with 1912; those to Hawaii an increase of 1.6 million dollars, while those to Porto Rico and Alaska, as above indicated, show a slight decline. On the other side of the account, the value of merchandise received from the non-contiguous territory shows a distinct decline, especially in those cases in which sugar formed the shipments of chief value to the United States. The value of merchandise shipped from Hawaii to the United States in the calendar year 1913 is out 49 million dollars against 50 million in 1912; from Porto Rico, 29.6 million against 31.2 million in 1912; from the Philippine islands, approximately 18% against 20.4 million in 1912; and from Alaska 20.5 million against 23.4 million in 1912.

Smaller quantities and lower prices of sugar are the causes of the large reduction in the value of shipments from the Hawaiian and Philippine islands to the United States, while lower prices of sugar are the cause of the decline in the case of Porto Rico. The quantity of sugar shipped from the Hawaiian islands to the United States in 1913 was not 1,578 million pounds against 1,162 million in 1912, but the value showed a still greater decline, being but 24.4 million dol-

lars in 1913 against 43.2-3 millions in 1912. Porto Rico's shipments of sugar to the United States were larger in quantity than in the preceding year, but the value was smaller, the quantity in 1912 being 750 million pounds against 680 million pounds in 1913, the value of this larger quantity being 25.2-3 million dollars in 1912 against 29 million for the smaller quantity in 1913. The sugar received from the Philippines was but about 100 million pounds against 252 million pounds in 1912. In the case of Alaska, the slight falling off in the total value of shipments occurs in copper ore, the value of which was 3.3-4 million dollars in 1913 against 4.9 million in the same months of 1912.

In the merchandise sent from the United States to the territories in question, the increase occurs in many articles, especially foodstuffs and manufactures. In the case of the Hawaiian islands, breadstuffs, meat, iron and steel manufactures, and miscellaneous manufactures show an increase, while manufactures of wood and iron and steel show a slight decline. In the case of the Philippines, cotton goods, iron and steel manufactures, and miscellaneous manufactures show an increase, while manufactures of wood and iron and steel show a slight decline. In the case of Alaska, breadstuffs, iron and steel manufactures, and miscellaneous manufactures show a slight decrease, while meat and dairy products show a slight increase.

The total value of merchandise sent from the United States to its non-contiguous territories in 1913 shows an increase of 200 per cent when compared with 1903, while the increase in the exports to foreign countries in the same period is but 88 per cent.

AUTOMOBILE SHOW CONCLUDED TONIGHT

Attendance Last Night Crowds the Armory and Proves Most Successful Day of the Display.

BIG ATTENDANCE IS LOOKED FOR TONIGHT

Exhibitors Generally Satisfied With Business Results of the Exhibition and Visitors Are Enthusiastic.

The first Albuquerque automobile show will close tonight after four days of successful attendance which has far surpassed the hopes of the promoters of the enterprise. The success of the show has been complete financially and in point of interest and attendance, and this success makes it practically sure that the show will become an annual feature of the winter in Albuquerque.

Tonight the show will be given over to - Good Roads crowd, although the general public is urged to attend. Good Roads pictures will be a feature of the evening and there will be music and plenty of opportunity to dance, for the managers of the show propose to end the successful four days' program with a general four days' program.

The attendance last night, society night, crowded the armory and proved the largest of the week. The music was good, so were the pictures, and the crowd enjoyed itself thoroughly.

The exhibitors all have expressed themselves as thoroughly pleased with the show and its business results. Something like thirty cars have been sold or contracted for during the four days, and every exhibitor has a line of very promising "prospects."

The experienced agents and salesmen from automobile manufacturing centers who have attended the show, every one have expressed surprise at its extent and at the local interest shown in the display. Several of these men have given assurance that they will be here again next year when the show is repeated, having found Albuquerque a good town in which to encourage business.

Flowers for the Mayor.

At a tribute to his management of the automobile show, the young ladies of the flower booth, and the Albuquerque Floral company, which has furnished the flowers for the booth, last night presented Mayor Sellers with a handsome horseshoe of cut-flowers, framing his photograph.

INDIGESTION ENDED. STOMACH FEELS FINE

Time "Pape's Diapiesin" in five minutes all Sourness, Gas, Heartburn and Dyspepsia is gone.

Sour, gassy, upset stomach, indigestion, heartburn, dyspepsia; when the food you eat ferments into gases and stubborn lumps; your head aches and you feel sick and miserable, that's when you realize the magic in Pape's Diapiesin. It makes all stomach misery vanish in five minutes.

If your stomach is in a continuous revolt—if you can't get it regulated, please, for your sake, try Pape's Diapiesin. It's so needless to have a bad stomach—make your next meal a favorite food, meal, then take a little Diapiesin. There will not be any distress—eat without fear. It's because Pape's Diapiesin "really does" regulate weak, out-of-order stomachs that gives it its millions of sales annually.

Get a large fifty-cent case of Pape's Diapiesin from any drug store. It is the quickest, surest stomach relief and cure known. It acts almost like magic—it is a scientific, harmless and pleasant stomach preparation which truly belongs in every home.

Ferdinand May Visit U.S. Sofia, Feb. 12.—It is possible that King Ferdinand will visit the United States at an early date. The king received the American commissioners of the Panama-Pacific exposition and told them that he hoped to be able to visit America in April.

Taft Roasts Haywood. Amherst, Mass., Feb. 12.—William D. Haywood, one of the leaders of the Industrial Workers of the World, was described last night by former President Taft "as representing a type of unionism led by the red flag and without God or country."

Professor Taft spoke on the topic, "The Signs of the Times," before students of Amherst college.

The tendency of the present day toward universal brotherhood was commended but the speaker deplored the extension of this tendency toward socialism or communism. Trades unions were to be praised for their benefit to the worker, but "the red flag" organizations were to be denounced, he said.

Can't look well, eat well, or feel well with impure blood. Keep the blood pure with Burdock Blood Purifiers. Eat simply, take exercise, keep clean, and good health is pretty sure to follow. \$1.50 a bottle.

Mother's Advice To Her Daughter

A Real Live Doll to Fondle Is Woman's Greatest Happiness.

One of the most important matters about which women concern themselves is their future status as a grandmother. And she is wise in her own way, for she knows of no greater happiness than to have a daughter who is a mother. This is an external application for the abdominal muscles and breasts. It certainly has a wonderful influence, it allays all fear, banishes all pain, is a most grateful encouragement to the young, expectant mother, and permits her to go through the period happy in mind, free in body and thus destined to anticipate woman's greatest happiness as a mother. Mother's Friend makes the muscles free, pliant and responsive to expansion. Thus all strain and tension upon the nerves and ligaments is avoided, and, in place of a period of discomfort and consequent dread, it is a season of calm repose and joyful expectation.

There is no nausea, no morning sickness, no nervous twitching, none of that constant strain known to so many women, hence Mother's Friend is really one of the greatest blessings that could be devised.

This splendid and certain remedy can be had of any druggist at \$1.00 a bottle, and is sure to prove of incalculable value, not only upon the mother, but upon the health and future of the child. Write to Bradfield Regulator Co., 132 Lamar Ridge, Atlanta, Ga., for their book to expectant mothers.

SMALL ARSENAL IS STOLEN FROM THIRION

Second Hand Store on Gold Avenue Robbed Last Night of Pistol, Shot Gun and Five Dozen Knives.

MRS. RENAUD DRAWS A SUSPENDED SENTENCE

The second-hand store at 112 West Gold avenue, owned by J. A. Thirion, was entered by burglars last night and a small arsenal stolen. The spoils include a 44-Caliber revolver, a Stevens single barrel shotgun, a razor, five dozen pocketknives, 200 44-Caliber shells, 200 45-Caliber shells, 200 shotgun shells and a quantity of 22-caliber revolver shells.

There is no break in windows or doors and it is believed the burglar had a skeleton key, or had secured a key to the place. A roomer who lives upstairs, thinks he heard someone moving about the store about 1 o'clock, but is not certain. The police have several lines out this morning which it is believed will bring in the guilty parties.

Judge Craig this morning assessed a fine against Mrs. A. Renaud, in court yesterday morning on a charge of using profane language. The fine was suspended during good behavior.

Frank Montoya was sentenced to serve fifteen days in jail for being drunk.

J. C. Crader, a boiler-maker, who says he came from Pueblo last night, was allowed to go.

Vitch Wins the Cow. After journeying to the London dairy farm yesterday afternoon with principals and witnesses in the replevin case of P. Vitch against Mr. Loudon, and after shaving the red cow in dispute so as to disclose the brand, Judge Craig awarded the cow to Vitch, the brand corresponding with the butcher's description of it. Vitch bought the cow from Herrera brothers who have a ranch on the Rio Puerco and came here to testify in the case. After the brand was shown Mr. Loudon relinquished his claim.

SAGE TEA DARKENS HAIR TO ANY SHADE

Don't stay gray! Here's an Old-time Recipe that Anybody can Apply.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and abundant. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a 50 cent bottle of "Witch's Sage and Sulphur Hair Remedy," you will get this famous old recipe which can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, feverish, itchy scalp and falling hair.

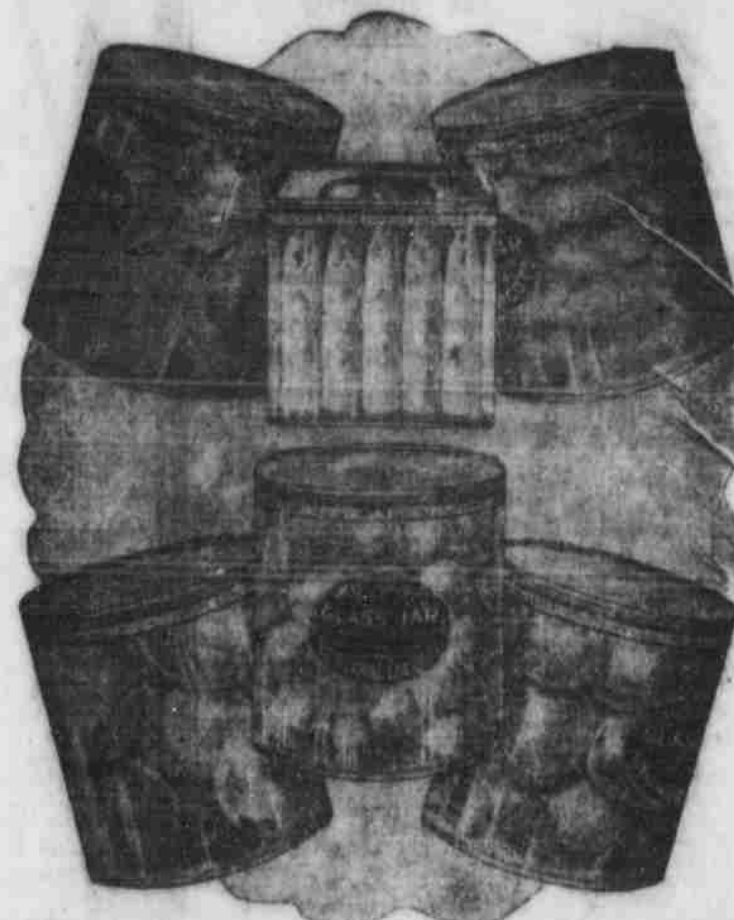

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark, glossy, soft and abundant.

CURED HIS RUPTURE

I was badly ruptured while lifting a trunk several years ago. Doctors said my only hope of cure was an operation. Trusses did me no good. Finally I got hold of something that quickly and completely cured me. Years have passed and the rupture has never returned, although I am doing hard work as a carpenter. There was no operation, no lost time, no trouble. I have nothing to sell, but will give all information how you may find a complete cure without operation, if you write to me, Eugene M. Pullen, Carpenter, 1013 Marcellus Avenue, Manassas, N. J. Better cut out this notice and show it to any others who are ruptured—you may save a life or a least stop the misery of rupture and worry and danger of an operation.

150 CARS DAILY OF ORANGES OVER SANTA FE

Nearly 3,300 Carloads Have Left Southern California Since December 1 via Atchison; Big Movement Starts March 1.

Citrus fruit shipments out of California over the Santa Fe last week totaled about 300 cars, making almost 2,300 carloads that have passed over the Santa Fe this season from December 1, 1913. The average for the past week was close to

150 cars per day, meaning that three fruit trains have left every night since February 1. If this average is maintained throughout the month about 3,200 cars will leave for the eastern markets during February. Railroad men figure that the average will not be much above 150 cars per day until after the first week in March, when the height of the season begins. About 200 cars is the average estimated for March. A general order has been issued from Santa Fe headquarters requiring all refrigerator cars to be placed in immediate repair and sent to the Pacific coast to be in readiness for the moving of the big orange crop that starts about March 1. The New Mexico divisions of the Santa Fe are expecting to see business greatly stimulated in these districts as a result of the fruit transportation movement.

Hives, gonorrhea, itch or salt rheum sets you crazy. Can't bear the touch of your clothing. Doan's Ointment is fine for skin itching. All druggists sell it. 50c a box.
